Centre for Digital Media:
Seeking One (1) Part-Time Limited Term Practitioner Faculty for Renowned Master of Digital Media Program

The Centre for Digital Media (CDM) invites applications for one (1) 15% part-time limited term practitioner faculty position at the rank of Assistant Professor of Practice starting January 1, 2027 to April 30, 2027. The successful candidate will teach in Spring 2027 for the Master of Digital Media program.

About CDM and MDM:

Centre for Digital Media (CDM) was established through the ground-breaking partnership of four leading academic institutions: The University of British Columbia (UBC), Simon Fraser University (SFU), Emily Carr University of Art + Design (ECU), and the British Columbia Institute of Technology (BCIT). CDM collaborates with our four founding academic institution partners, industry and the community to create world-leading digital media programming that focuses on addressing society's most important challenges.

The Master of Digital Media (MDM) is a professional graduate program that emphasizes collaborative, project-based learning and applied research. In collaboration with industry, students receive hands-on experience developing digital media products. CDM faculty emphasize a holistic educational process that addresses the needs of each individual student within our cohort-based MDM program. There is emphasis on an end-to-end student experience focusing on support across all courses, one-on-one professional support, and mentorship. The program equips students with the skills, knowledge, and experience to become future leaders in the digital media workforce. Faculty in CDM's MDM program are members of SFU's Faculty of Communication, Art and Technology within the School of Interactive Arts and Technology.

Duties:

The workload consists of supervision of industry-focused project teams. The student teams will be assigned based on the professional background of the faculty member: art/technical art, design, product/project management, technical product development and programming. Weekly client and student meetings will take place during typical business hours Monday-Thursday.

The faculty members will be expected to contribute to CDM's teaching excellence and academic community through activities such as attending meetings, committee work, mentorship and ongoing curriculum enhancements. The successful candidates will need to utilize their extensive industry experience to support students during their job search. The workload consists of both an online-based course, course preparation, assessment and accessibility via office hours.

Term: January 1, 2027 to April 30, 2027.

Required Qualifications:

Professional industry experience, teaching excellence, active engagement with emerging digital media and creative technologies, and established professional practice and networks within relevant industry sectors are key criteria for this position.

The successful candidate must have:
